

Mobility & Aerospace

Bavaria offers ideal conditions for all companies addressing the mobility sector. With a large number of companies in the transport industry, start-ups and global players are revolutionising mobility.

Your digital start-up centres

About

The Augsburg Innovationspark is a future-oriented project of the Augsburg region. The heart of this science park is the technology centre which boasts modern campus grounds for innovation and knowledge exchange.

Just around the corner from Audi headquarters and two high-profile universities, brigk offers modern coworking facilities and lab space.

Ready for take-off? At brigkAIR startups are developing vertical mobility solutions, drones and the corresponding hard- and software. There even is a test area to try out new ideas next door.

Mobility & Aerospace

Bavaria offers ideal conditions for all companies addressing the mobility sector. With a large number of companies in the transport industry, start-ups and global players are revolutionising mobility.

Your digital start-up centres

About

Being a business incubator for tech founders, the gate is the first contact address for high-tech start-ups located within the research campus in Garching / Munich. More than 50 resident startups particularly appreciate the flexibly expandable office spaces.

At ITC1, founders, start-ups and young companies meet already established high-tech companies. In addition, the Innovations Technology Campus offers a high-quality infrastructure, a cross-sector network and actively promotes innovation. It aims to support digital start-ups.

The Munich-based Technology Centre is one of the most important high-tech centres in Germany, and is open to all high-tech and technology companies.
