Welcome to Bavaria.

The Innovation Hub for Mobility.

Top-quality talents meet industry partners.

Bavaria is a hotspot for the mobility industry: it is home to traditional car manufacturers such as BMW and Audi, commercial vehicle manufacturers like MAN, as well as a large number of innovative start-ups and suppliers. Universities with pioneering degree programmes, supportive incubators and accelerator programmes as well as a lively research scene create an ideal environment for the development of new mobility solutions.

The names of the organisations and institutions listed above are just a selection of examples, as there are of course many more within the Bavarian Mobility Network.

450k

around 450,000 people are employed in the automotive sector.

1st

Germany is the first country in Europe passing a law for autonomous driving.

40%

of patents in the automotive sector come from Bavaria. The European Patent Office is also based in Munich.

We help you to benefit from the strong bavarian ecosystem.
