

Mobility & Aerospace

Bavaria offers ideal conditions for all companies addressing the mobility sector. With a large number of companies in the transport industry, start-ups and global players are revolutionising mobility.

Your digital start-up centres

About

Just around the corner from Audi headquarters and two high-profile universities, brigk offers modern coworking facilities and lab space.

Ready for take-off? At brigkAIR startups are developing vertical mobility solutions, drones and the corresponding hard- and software. There even is a test area to try out new ideas next door.

Being a business incubator for tech founders, the gate is the first contact address for high-tech start-ups located within the research campus in Garching / Munich. More than 50 resident startups particularly appreciate the flexibly expandable office spaces.

Startup.Digital.Nürnberg

About

At ITC1, founders, start-ups and young companies meet already established high-tech companies. In addition, the Innovations Technology Campus offers a high-quality infrastructure, a cross-sector network and actively promotes innovation. It aims to support digital start-ups.

The Munich-based Technology Centre is one of the most important high-tech centres in Germany, and is open to all high-tech and technology companies.

KleeCenter offers entrepreneurs and founders a package of tailor-made components and provides efficient start-up assistance with infrastructure and technical equipment.
